

Chime Introduces Instant Loans

March 21, 2025

Members now have fast and easy access to liquidity with fair, fixed rates

SAN FRANCISCO--([BUSINESS WIRE](#))--Leading consumer financial technology company Chime® announced today the launch of Instant Loans—a product that provides instant access to up to \$500 in funds with a fixed interest rate that is lower than what’s typically observed in the industry. Like all of Chime’s services, Instant Loans is easy to use and transparent, and unlike some other loan products, there is no credit check to qualify. Instead, Chime leverages its proprietary technology platform and rich data sources to help determine eligibility. On-time payments can also help members build credit over time.

Instant Loans offers three-month installment loans up to \$500 to pre-approved Chime members who receive direct deposits to their Chime Checking Account. Members are pre-approved for a loan and notified of their eligibility within the Chime app. Once accepted, eligible members gain instant access to the loan funds. When compared to other types of liquidity products on the market, Instant Loans enables consumers to borrow at potentially half the cost, and with the added flexibility of having up to three times longer to repay.¹ Chime’s Instant Loans has no late fees or compound interest, just a fixed interest rate of \$5 for every \$100 borrowed, paid back in three monthly payments of \$35.00 per \$100 borrowed (29.76% annual percentage rate). For greater ease, repayments can be automated and are designed to not exceed 10% of monthly member cash inflows to ensure affordability. Chime also reports on-time payment history to credit reporting agencies, allowing members to build credit. Participants who pay on time may see their credit score increase by 10-30 points, validated by a prior simulation conducted with Experian².

“We are relentlessly focused on helping everyday people achieve financial progress,” said Madhu Muthukumar, Chime’s Chief Product Officer. “Our members have told us that they want simple and transparent tools to access money when they need it, and to help them build credit — and we’re excited Instant Loans provides both to our members.”

Instant Loans is Chime’s latest innovation, building on its commitment to enabling financial progress through products centered around consumer needs. In 2024, Chime announced the launch of MyPay, which lets eligible members access up to \$500³ of their pay before payday with no interest⁴ and no credit check. Since its official launch in July 2024, MyPay has helped members access billions of dollars. SpotMe⁵, which allows Chime members to overdraw their account without fees, also surpassed a major [milestone](#) in 2024, covering more than \$30 billion in transactions. The Chime Checking Account was one of the first full-featured accounts to disrupt the traditional banking industry by offering fee-free overdrafts with the launch of SpotMe. Similarly, millions of people have increased their credit scores since opening a Chime [Credit Builder](#) Visa® Credit Card, which doesn’t charge interest or require a credit check or minimum security deposit.
